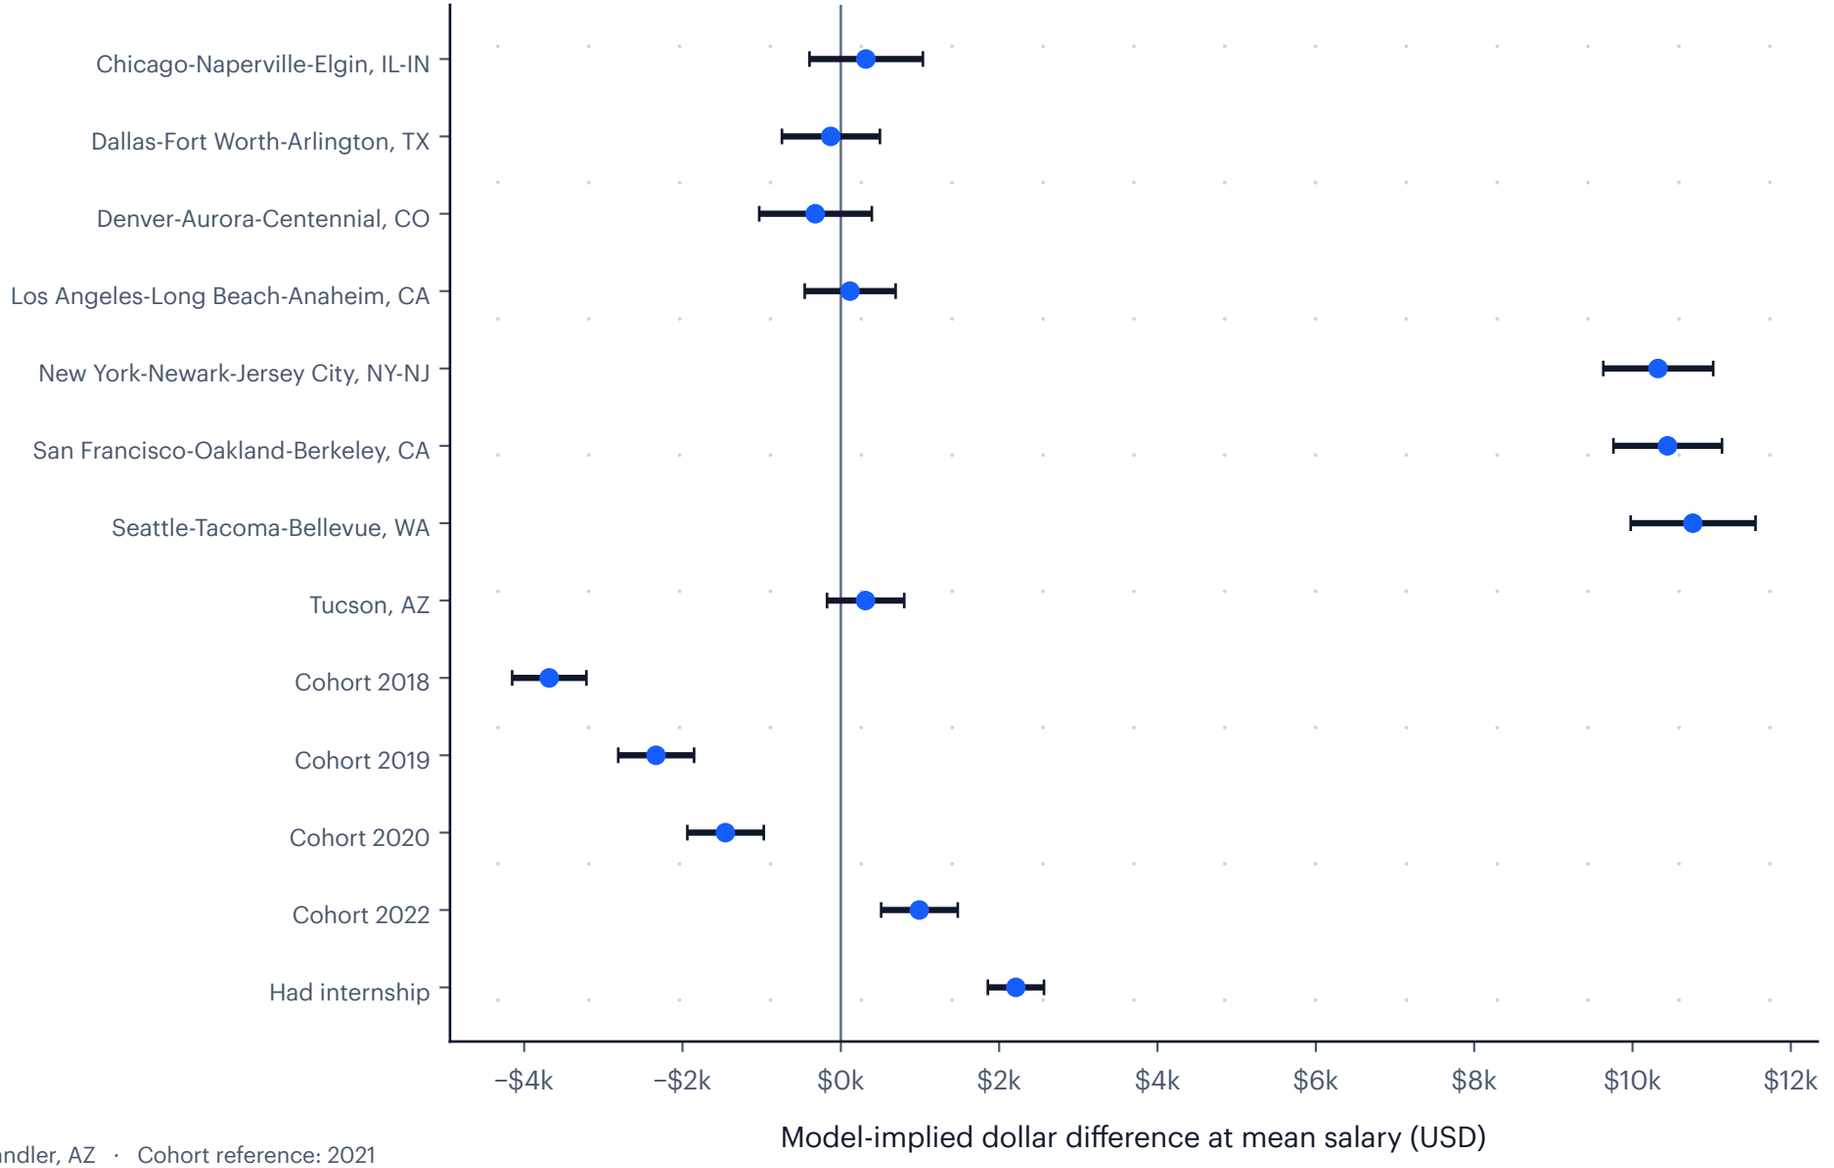
Salary controls recover the planted differences

Metro and graduation-year indicators plus internship · each indicator is relative to its omitted reference



Metro reference: Phoenix-Mesa-Chandler, AZ · Cohort reference: 2021

Sources: hedonic_controls_metro_fixed_effects.csv, hedonic_model_summary.json · 95% HC1-robust intervals.

Omitted references: read from the local feature design; indicator contrasts are not city-level mean salaries.

Synthetic alumni · testing results
